One - Week Workshop

ON

Applied Econometrics

Organized by

Department of Management Studies
IUST, Awantipora, J&K, 192122

website: <https://iust.ac.in/Default.aspx>

About the University

Established through an Act of the J&K State Legislative Assembly in 2005, The Islamic University of Science and Technology, Awantipora is located approximately 28 kilometres south of the Srinagar city of J&K. The University offers undergraduate, postgraduate, and research courses in a mosaic of disciplines ranging from science, technology, and management to languages and literature.

IUST is situated in the midst of almond grove gardens, covered on one side by the mighty and beautiful Vastoorvan Mountains and, on the other, by the flowing waters of river Jehlum. The university is recognized by the UGC under sections 12(b) and 2(f).

About the Workshop

Applied econometrics integrates conceptual econometrics and empirical data to offer insight into the dynamics of economic theories. Against this context, the workshop is aimed to impart knowledge of econometric models and techniques that facilitate empirical research in the domain of economics and finance.

The workshop aims to offer a platform for scholarly deliberation on a wide repertoire of tools and techniques of econometric modelling and analysis. Beyond that, the hands-on training sessions in the workshop will offer deeper insight to the participants on the application of econometric methods to real-world economic and financial data.

Target audience

- Research scholars
- Teachers in colleges and universities
- People associated with research in economics and finance
