

Certificate Course

on

Printed Circuit Board Designing

Design Innovation Centre at Islamic University of Science and Technology (DIC@IUST) seeks applications from students for its 2 day certificate course to be held on 6th & 7th April 2022. The certificate course is designed to give state-of-art exposure to students in electronic circuit design, and its fabrication.

What Will You Learn?

- Design Schematics in PCB Software
- Perform layout design based on the schematics.
- Implement design rules and validations in PCB circuit.
- Create PCB design outputs and manufacture PCB using toner transfer method

Details

- Course Title: Printed Circuit Board Designing
- Course Type: Certificate Course
- Instructor: Mr. Jawaaz Ahmad
- Duration: 2 Days
- Prerequisites: Basic knowledge of electronic circuits.
- Selection Criteria: First Come First Serve
- Maximum Intake Capacity: Twenty (20)
- Course Fee: Rs. 200/- INR

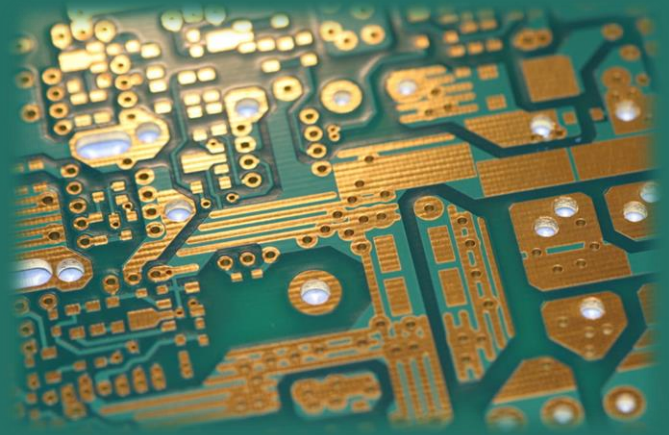

Who Can Apply?

B.Tech Students / All Branches

How to Apply?

Fill and Submit a copy of application form (available at DIC@IUST) endorsed by your HOD to the following address:

Design Innovation Centre, Second Floor, Academic Block –IV, Islamic University of Science and Technology.

Design Innovation Centre

Islamic University of Science and Technology
