Two-Day Workshop on Embedded Systems a Robotics Concluded at IUST

Awantipora, Nov. 22 - The culmination of the two-day workshop on Embedded Systems and Robotics, jointly organized by the Department of Computer Science and Engineering, IUST in collaboration with e-Yantra, Indian Institute of Technology, Bombay concluded at IUST today. The workshop was attended by principals and faculty members from 36 degree colleges from different parts of Kashmir. The workshop provided a robust platform for discussions, knowledge exchange, and hands-on learning experiences in embedded systems and robotics. Sessions covered FireBird V introduction by Mr. Lohit Penubaku, I/O interfacing, PWM, and Sensor Interfacing by Mr. Arun Sadhu, and topics like LCD, ADC, and Motor control by Ms. Isha Kamone.
