**Guest Lecture on Career Opportunities in Mathematical Sciences at IUST**

Awantipora, March 12: The Department of Mathematical Sciences, Islamic University of Science and Technology (IUST), organized a guest lecture on career opportunities for students in Mathematical Sciences. The session was delivered by the department alumnus, Dr. Amir Ahmad Dar from Lovely Professional University (LPU), under its alumni connect initiative.

Dr. Dar highlighted job prospects in academia, research institutions, and industries such as finance, healthcare, and technology. He discussed the growing demand for expertise in mathematical modeling, statistical analysis, and machine learning, along with career avenues in statistical agencies. He also elaborated on the applications of mathematical sciences in artificial intelligence, cryptography, and cybersecurity.

Emphasizing the relevance of mathematical sciences in today's world, Dr. Peer Bilal, Head Department noted that such discussions help students recognize the vast career opportunities available and encourage them to develop skills essential for emerging fields.
