Islamic University of Science and Technology.
Awantipora (Pulwama) Kashmir 192122.

Subject:- The Right of Women to Inheritance in Islam and its Application among the Muslims of Kashmir. An empirical study. (Collaboration for Data Collection and Analysis thereof.)

Dear,

We are pleased to support your project by providing human resources and other necessary support for data collection. To facilitate this collaboration, kindly submit the questionnaire for our review.

Our team has already been trained for questionnaire-based surveys. We will conduct sample surveys across all districts, ensuring comprehensive data collection.

To streamline the process, we propose digitizing the surveys to enable auto-generation of reports. Our field volunteers will submit the surveys, and we will facilitate the reporting process.

We are committed to supporting your project, ensuring accurate analysis, and facilitating the formulation of solutions. We will collaborate with local Muftis and Ulamas to raise awareness among the general public through their programs.

Please share the questionnaire and formats at your earliest convenience. We look forward to working together.

Yours Sincerely,

Chairman

Le-Khidmah Foundation
