

## Islamic University of Science and Technology Kashmir Centre for Career Counselling and Placements

The Centre for Career Counselling & Placement (3CP) serves as a dynamic platform dedicated to nurturing the comprehensive development of both students and alumni. Our commitment to this holistic growth is realized through a series of enriching engagements with eminent resource persons, seasoned professionals, motivational speakers, and industry experts. These sessions are thoughtfully curated to provide valuable insights and practical knowledge that contribute to the well-rounded personalities of our participants.

Within the 3CP framework, we place a particular emphasis on honing crucial skills such as communication and interpersonal abilities, corporate readiness, interview etiquettes, and the art of crafting impactful resumes. By actively involving experts in these specific fields, we aim to empower our students with the soft skills essential for navigating the intricacies of interviews in today's highly competitive professional landscape.

Recognizing the global nature of employment opportunities, the training exposure provided by 3CP offers our students a distinctive edge in the international job market. This advantage stems from a holistic approach that not only focuses on academic excellence but also prioritizes the development of interpersonal and professional skills.

In alignment with our dedication to preparing students for real-world scenarios, the 3CP places a strong emphasis on formal training programs. These programs are structured in the form of Winter/Summer Internships, providing students with immersive experiences that bridge the gap between academic learning and practical application. Through these initiatives, we aim to instil confidence, competence, and a competitive edge in our students, ensuring they are well-prepared to excel in their chosen professional paths.

At 3CP, our vision goes beyond conventional career counselling and placement services; we aspire to empower individuals with the skills and confidence needed to thrive in the ever-evolving global landscape.
