

Centre for Career Counselling and Placements Islamic University of Science and Technology, Kashmir

Collaborations

- A Memorandum of Understanding (MoU) was established with *iQuasar Software Solutions* to support comprehensive student development at IUST. This agreement includes dedicated placement opportunities, various capacity-building initiatives aimed at enhancing professional skills, and the introduction of an open elective course in proposal development to equip students with essential expertise in drafting and presenting proposals effectively.
- An MoU was signed with *Apexure India Limited* to provide students with opportunities for internships and placements.
- MoUs were signed with *Universitas Islam Indonesia* and the *University of Islamic Denominations, Tehran*, establishing a commitment to mutual academic and cultural collaboration.
- Agreements with *BQE Software* and *iQuasar Software Solutions* aim to foster an entrepreneurial environment through training and facilitate placements for IUST students in both organizations.
- The *J&K Science Technology and Innovation Council (JK ST&IC)* partnership will enable mutual research cooperation, entrepreneurship mentoring, and training for budding technologists and scientists.
- The *Kashmir Education Initiative (KEI)* collaboration supports a continuing education program featuring monthly expert lectures.
- *Mother Helpage Worldwide* will provide financial assistance to IUST students in ongoing and future projects.
- An MoU with *Internshala*, India's largest internship platform, offers students access to extensive internship opportunities.
