Recalling fun-filled days at IUST, It does have an immense impact on my personal and career development. The university has always put great focus on my behavioural, functional, and academic skills. I was privileged to have studied in IUST which widened my horizons and helped my understanding of strengths and weaknesses, and these have proven critical in career development.

It has been more than 10 years since I left IUST but the memories are still fresh. Attending IUST was the best time of my life. The good thing about IUST was its location and its wonderful atmosphere. The friends i made there would have never happened if it was not IUST. The University has one of the finest teaching faculty who are very much approachable and keen in bringing out the best in each and every student. I can say IUST is one of the great places to learn & gain knowledge.

Choosing a university for an undergraduate program is a harrowing and herculean task: down the line, I can't help feeling as if the University itself had chosen me! It's been a long time yet I feel like it was yesterday when I sat there in the BBA block as a student of the 2nd batch of BBA Program of DMS at IUST, Awantipora.

The young, competent faculty were more than mentors and drew out the best of our innate capabilities, and harnessed the potential of the learned skills and knowledge. I am indebted to the department for the 'mean' mentorship and intellectual cradling that have gone a long way in making me what I am today.

I would like to take this opportunity to thank all the staff of Mgt dept, be it Fazili sir, Parray sir, Anisa Mam and all other professors. I've been working In UAE in MNC from last 5 yrs since I left the IUST and Alhamdulillah on a better n an imp position in the company.

All this was possible only bcz of the guidance n the trainings u provided us to face these challenges n how to overcome those. I'll be always grateful to my professors who backed me every time n were right up there for me any time I looked up to them for any sort of help.

I have done MBA-IB from IUST. Currently, I am running my business. I am an entrepreneur and for this credit goes to my mentors at IUST. I can't forget how exciting and fruitful time I have spent at the department. I got infinite love and learning experiences from my teachers. Being an "IUSTIAN" makes me feel proud. In true sense IUST is much beyond just an institution, it actually denotes a Culture, a culture of excellence, empowerment, and enrichment.

Amir Wani
MBA-IB (2017-19)

The skills and experience I have gained at IUST have really helped me in maximizing my career options. These learnings have boosted my morale and groomed me professionally. I have employed my knowledge and skills to successfully expand my family business by imbibing certain changes and also I have secured very good position in corporate as well. The credit for all this goes to IUST for its great learning culture.
