Srinagar, Feb 23: The week-long Faculty Development Programme (FDP) on 'Emerging Trends in Physical, Chemical and Mathematical Sciences' has concluded at Islamic University of Science and Technology (IUST), here.

The programme that was held from February 14 to 21 was organised by School of Sciences, IUST. It emphasised the significance of teaching and research in the field of science and technology to enhance the understanding of the subject.

The objective of the programme was to provide faculty members with an interdisciplinary approach in understanding the fundamental concepts and their application in various fields. It also aimed to improve the ability to identify, communicate and solve problems.

The FDP was attended by over 40 faculty members from various institutions.

IUST launches 'Sehr' perfumes

Special Lecture on "Patent Application Process: Strategic Considerations for Patent Filing" held at IUST

Phleg Macasid Institute Canada delivers lecture at IUST

The lecture was held on the 23rd of February at IUST. It was a special event featuring a guest speaker from Phleg Macasid Institute Canada. The session focused on the intricacies of patent law and the strategic aspects of patent filing, which are crucial for researchers and innovators.

The speaker discussed the importance of understanding the patent process, from identifying an invention to the final filing and prosecution stages. He also highlighted common pitfalls and provided practical advice on how to navigate the complex legal landscape of patents.

The lecture was well-attended and received positive feedback from the participants. It was a valuable opportunity for the faculty and students to gain insights from an expert in the field.

Special Lecture On 'Patent Filing' Held At IUST

OBSERVER NEWS SERVICE

AWANTIPORA: Department of Chemistry, Islamic University of Science and Technology, today organized a special lecture on "PATENT FILING". The event was inaugurated by Honourable Vice Chancellor, Prof. Shakil A. Romshoo, Chief Guest on the occasion.

In his Presidential address, Prof. Romshoo, who is an internationally acclaimed and an awarded scientist himself with an outstanding contribution with the development and application of Geomatics for earth & environmental sciences noted the importance of patents and also talked about the patent filing status of IUST, while inspiring the participants during his address.

Prof. Romshoo while sharing his vision regarding developing a quality scientific and research temperament within the university, assured his full support towards patent submissions and said that "at least 16 patents were currently operational in the name of IUST." HVC also congratulated Head Department of Chemistry Dr. Aabid Hussain Shalla for organising such talks that are very relevant in current scenario and pertinent for developing a quality

scientific culture.

Director, Bio Design Innovation Center (MHRD), R.D. University, Jabalpur and eminent expert Prof. S.S. Sandhu who was the invited speaker, deliberated at length on the different aspects of Patent filing and discussed the entire process of submission. He also pointed different areas that are patentable and mentioned the domains which could not be patented and also stressed upon research supervisors to select the topics that fell in the patentable areas.

Earlier, Professor M. A. Khuroo from Department of Chemistry who was the patron of the event introduced the invited speaker, Prof. S. S. Sandhu and spoke about his eminence in Patent drafting. During the special lecture which witnessed 100 participants, various areas were highlighted including the methodology, legal requirements, patent publishing entrepreneurship. During the occasion Asst. Prof. UTD-Chemistry Dr. Manzoor Ahmad Dar Teaching Faculty Dr. Sheikh Abdul Majid, Organizing Secretary Dr. Jan Mohammad Mir and other Faculty and Staff members were also present. On the occasion Asst. Prof. UTD-Chemistry Dr. Manzoor Ahmad Dar proposed the vote of thanks.
