“

I think I'd need to invent a new dictionary to describe how inspiring and enlightening department of Journalism & Mass communication-IUST has been for me. It has represented to me an incredible opportunity of education, discovery and self-challenge. From faculty members especially Dr. Ruheela Hassan, I learned how to approach academia with compassion and an open mind. From my peers, I learned how to pursue various careers in Journalism and Mass communication. DJMC has been one of the most memorable and eye-opening experiences for me.
