

Thrust Areas of Research

S.No	Current Major Research Areas	No. of Faculty members involved
1	Theoretical and Experimental Nuclear Physics	03
2	Experimental and Computational Condensed Matter Physics	03
3	Materials Science (Phosphor materials for WLED applications, Perovskites)	03
4	High energy Astrophysics (XRBS and Blazars), Accretion disk theory	01
5	Digital Holography, Biomedical Imaging for medical diagnosis	01
6	Particle Phenomenology, Dark Matter, Neutrino Physics and Black holes	01
7	Atmospheric Science	01
