

S. No	Name	Designation/Category	Research Title/Research Title	Principal Investigator/Supervisor	Photograph
1	Dr. Faisal Ali	Sr. Project Associate	Establishment of Interdisciplinary Science & Technology Research Programme for Chronic Diseases	Prof. Ayoub Qadri	
2	Dr. Sumaira Qamar	Project Associate II	Establishment of Interdisciplinary Science & Technology Research Programme for Chronic Diseases		
3	Dr. Sufiara Yousuf	Project Associate II	Establishment of Interdisciplinary Science & Technology Research Programme for Chronic Diseases		
4	Ms. Syed Riffat Farooq	Technical Assistant	Establishment of Interdisciplinary Science & Technology Research Programme for Chronic Diseases		
5	Dr. Tabinda Showkat	Post- Doctoral Fellow	Investigating the role of BAG3 in Inflammasome Activation, Atherosclerosis progression and Heart Failure Development	Dr. Muzaffar Ahmad Macha	
6	Sana Khurshid	PhD Scholar	Identification & validation of novel therapeutic targets for Esophageal Cancer		
7	Asma Shah	PhD Scholar	Development and Characterization of Novel in Vitro Models for Gastrointestinal Tract Cancers from Kashmiri Patients		

8	Mudasir Ahmad Kumar	PhD Scholar	System biology based identification and validation of novel therapeutic agents for Head and Neck Squamous Cell Carcinoma		
9	Shiekh Sholwkat	Junior Research Fellow	Therapeutic and Chemo-Sensitizing Efficiency of Unani Pharmacopeial formulation Dawa-UI-Kurkum on Head and Neck Squamous Cell Carcinoma		
10	Ibrah Bashir	Project Technician Support – III.	Artificial Intelligence-Based Deep Learning Model to Predict Gastric Cancer Tumor Heterogeneity and Therapeutic Response Using Histopathology Images		
11	Sumeira Shafi	PhD Scholar	Role of DNA Polymerase epsilon in Activating the DNA Replication Checkpoint	Dr. Rais Ahmad Ganai	
12	Qurat-ul-Ain	PhD Scholar	Gene fusions in Hematological Malignancies		
13	Intiza Gul	PhD Scholar	Regulation of Gene expression by PRC 2 complexes		
14	Insha Jan	PhD Scholar	Implications of Wnt/ β -Catenin Signaling in Drug Resistance and Progression of Prostate Cancer	Dr. Arsheed Ahmad Ganaie	
15	Zainab Iqra	PhD Scholar	Cullin-3 SPOP E3 Ligase in Prostate Cancer: Molecular Mechanisms and Tumorigenic Potential		

16	Showkat Hussain Bhat	PhD Scholar	To Investigate the role of a master regulator and therapeutic target in Neuroendocrine Prostrate Cancer (NEPC)		
17	Mohammad Abrar Ahmad	PhD Scholar	Not assigned yet		
18	Sumia Hamid	Project Assistant	Genetic determinants in low incidence of prostate cancer in Kashmiri population
