

Educational Tour by Students of GHSS Arihal Pulwama

Date: 30-08-2024

Target audience: 9th, 10th, 11th, 12th class students

Description:

An outreach program was held at IUST in which students of Govt Higher Secondary School Arihal Pulwama visited various departments of IUST.

The students visited the Computer Science and Engineering Lab at IUST, a visit designed to enhance their practical skills and ignite their passion for technology and innovation. The students' visit to the Embedded Systems and Robotics Lab at IUST offered them a unique opportunity to gain hands-on experience with advanced technologies. The students visit to the Nursing College at IUST provided a valuable opportunity to explore the field of nursing and its various aspects and comprehensive understanding of the nursing profession. More than 150 students along with 10 faculty members visited the campus.

Prof. Parvez ah. Mir, Director of the Centre for Innovation and Entrepreneurship Development (CIED) at IUST Foundation, interaction with students was to provide an insightful overview of the CIED Department and its objectives. His introduction highlighted the department's commitment to enhancing educational opportunities and addressing students' specific needs through its outreach programs.
