

Three-Day Workshop on Basic Bakery Making Skills Organized by SCDC, CIED-IUST Foundation

16-06-2025: The Skill and Capacity Development Cell (SCDC), CIED-IUST Foundation, in collaboration with the Department of Food Technology, IUST, successfully organized and conducted a three-day workshop on basic bakery making skills.

The workshop was inaugurated by Dr. Darakshan Majid, Coordinator SCDC and Assistant Professor in the Department of Food Technology. The primary objective of the workshop was to equip participants with foundational skills in bakery and cake making, empowering them to explore potential opportunities in the baking industry.

Dr. Darakshan Majid, a subject expert in Food Technology, conducted live demonstrations on the complete process of bakery cake preparation, from raw ingredients to the final product. The sessions focused on promoting food entrepreneurship and encouraging value addition in bakery products.

This initiative is part of a larger series of capacity-building workshops planned by the SCDC. These workshops aim to serve as vital platforms for empowering students, aspiring entrepreneurs and local stakeholders with practical, industry-relevant skills, contributing toward sustainable livelihood development and innovation in the agribusiness sector.
