

CIED–IUST Foundation and UltraTech Cement Organise One-Day Workshop on Skill-Based Roof Topping

04-05-2026: CIED–IUST Foundation, in collaboration with UltraTech Cement, organized a one-day skill-based workshop on roof topping at the IUST Innovation Campus. The workshop was designed to enhance participants’ practical knowledge and technical expertise in modern construction practices, with a special focus on effective roof topping techniques.

The programme was inaugurated by Prof. Parvez A. Mir, CEO, CIED–IUST Foundation, in the presence of Mr. Asraar Nida, Area Manager, UltraTech Cement, along with faculty members, coordinators and a large number of students.

Addressing the participants, Prof. Mir emphasized the significance of skill-oriented training programmes in bridging the gap between academic learning and industry requirements. He noted that such initiatives are aligned with the Foundation’s mission to promote innovation, entrepreneurship and employability among the youth.

Speaking on the occasion, Mr. Asraar Nida highlighted UltraTech Cement’s commitment to supporting skill development initiatives and strengthening workforce capabilities through exposure to modern construction techniques. He appreciated the enthusiasm shown by the participants and encouraged them to apply their learning in practical, real-world settings.

The workshop featured expert-led sessions, including a hands-on demonstration of roof topping techniques using UltraTech Cement products. Participants were introduced to advanced construction materials and methodologies that ensure durability, strength and cost-effectiveness in roofing solutions.

The workshop concluded with a feedback session followed by the distribution of certificates, marking yet another successful initiative by CIED–IUST Foundation in fostering industry-academia collaboration and promoting practical learning in the region.
