One-Day Exposure Visit of Government Higher Secondary school Akkad Anantnag

Date: 16-09-2026

Target Audience: Students of Government Higher Secondary School Akkad Anantnag.

Description

A Delegation Comprising 48 students and 5 faculty members from Government Boys Higher Secondary School Akkad Anantnag visited the Islamic University of Science and Technology (IUST) Innovation campus as part of an educational exposure and awareness programme.

During the visit, the students explored various facilities, including the CIED, Food Technology, Computer science facilities Rumi library and Athletic Track. The programme featured four interactive sessions with resource persons and university officials.

The interactions provided students with exposure to innovation and entrepreneurship, food processing techniques, computer science and technology, and physical health and wellness.

The Visit aimed to broaden students understanding of higher education, emerging technologies, entrepreneurship and opportunities available in different academic and professional fields

The visit delegation expressed excellent satisfactions with the programme and appreciated the efforts of IUST in providing students with meaningful exposure to its academic and innovation ecosystem. The delegations also suggested greater coordination among various departments of future outreach initiatives.
