One-Day Entrepreneurship awareness programme for students of GHSS, Mahind, Anantnag.

Awantipora, **September 09**: The Islamic University of Science and Technology (IUST), Awantipora, hosted an educational visit by Government Higher Secondary School, Mahind, Anantnag, on 9 September 2026, providing students with an opportunity to engage with the University's academic, innovation, and technology ecosystem.

A group of 70 students and accompanying faculty members visited the **CIED-IUST Foundation** at the IUST Innovation Campus as part of an Entrepreneurship Awareness Programme (EAP) aimed at nurturing innovation, skill development, creativity, and entrepreneurial thinking among young learners.

As part of the experiential learning programme, the students visited several advanced technology and innovation facilities, including the Factory Lab, Design & Development (D&D) Lab, Training & Development Lab, and UltraTech Cement Lab. They participated in interactive sessions and demonstrations involving modern technologies and equipment such as 3D printers, 3D scanners, and laser-cutting systems, gaining practical exposure to their applications.

The visit provided the students with meaningful insights into real-world technological applications, innovation processes, and industry-oriented skills. The experience also helped broaden their understanding of innovation-driven career opportunities and the importance of developing future-ready technical and entrepreneurial skills in an evolving professional landscape.
