One-Day Technology Exposure visit to students GHSS, Akkad, Anantnag

Awantipora, **September 16, 2026:** A group comprising 48 students and 5 faculty members from Government Boys Higher Secondary School, Akkad, Anantnag, visited the Islamic University of Science and Technology (IUST) Innovation Campus as part of an educational exposure and awareness programme.

During the visit, the students explored various facilities, including the **Centre for Innovation and Entrepreneurship Development (CIED), Department of Food Technology, Department of Computer Science , Rumi Library, and Athletic Track.** The programme featured four interactive sessions conducted by resource persons/ staff of the university , providing students with valuable insights into innovation and entrepreneurship, food processing techniques, computer science and emerging technologies, and physical health and wellness.

The visit aimed to broaden the students' understanding of higher education, emerging technologies, entrepreneurship, and the diverse academic and professional opportunities available in different fields.
