One-Day Academic Exposure visit to students Delhi Modern public School (DMPD) Pampore.

Awantipora, **September 18, 2026**: An educational campus visit was organized at the Islamic University of Science and Technology (IUST), Awantipora, for 58 students of Delhi Modern Public School, Pampore, as part of the University's ongoing outreach efforts to promote meaningful interaction between schools and higher education institutions. The visit was coordinated by the Office of Community Connect under the aegis of the Dean Outreach.

Accompanied by four faculty members, the students participated in interactive sessions and guided visits to the **Department of Physics, Department of Chemistry, Rumi Library, and Polytechnic College**. The visit provided them with an opportunity to explore laboratory facilities and experience the academic and scientific environment of the University firsthand.

The interactive sessions were conducted with the support of Departmental Community Coordinators, faculty members, and staff, who engaged with the students and familiarized them with various academic programmes, opportunities for higher education, and the importance of practical learning.

The visit offered the students valuable exposure to laboratory-based learning, scientific concepts, and safe laboratory practices, including the proper handling of chemicals. They were also oriented towards the importance of libraries and reading in enhancing knowledge, academic development, intellectual growth, and overall personality development.
