

Skill and Capacity Development Cell (SCDC) organized an Awareness Program at Hajahad Public Higher Secondary School Awantipora.

CIED IUST FOUNDATION

AWANTIPORA

The Skill and Capacity Development Cell (SCDC), CIED IUST FOUNDATION today organized a One-Day skill-mapping program at Hajahad Public Higher Secondary School Awantipora. The Program was attended by students as well as teachers and the aim of the awareness program was to identify key skills necessary for entrepreneurship such as creativity, problem-solving, communication, financial literacy, and resilience. Consider practical workshops or activities to develop these skills and provide an overview of what entrepreneurship entails, including characteristics of successful entrepreneurs and the importance of entrepreneurial skills.

Dr. Syed Darakshan Majid, Coordinator of SCDC give awareness to the students regarding the skill development Programs. She provides information on where to access resources, mentors, or networks that can support skill development efforts. She also aware students to explaining the significance of continuous learning and skill enhancement in personal and professional growth.

Such type of awareness programs is designed to inspire students to take proactive steps towards enhancing their skills and capacities, thereby empowering them to succeed in their chosen fields or professions.
