

CIED-IUST Foundation Organizes One-Day Workshop on 3D Modelling and Printing

26-06-2025: CIED-IUST Foundation organized a one-day workshop on 3D Modelling and Printing, aimed at enhancing practical skills among students and budding innovators.

The workshop was inaugurated by Prof. Parvez A. Mir, CEO, CIED-IUST Foundation, in the presence of the Atfaal Innovations team, students from various departments of IUST and other distinguished members of the CIED-IUST Foundation.

In his inaugural address, Prof. Mir emphasized the significance of 3D printing for the modern generation, highlighting its crucial role in driving innovation, technological advancement and its expanding applications across diverse industries.

The team from Atfaal Innovations provided hands-on training in Computer-Aided Design (CAD) software, 3D modelling techniques and the operational know-how of 3D printers. Participants were guided through the entire workflow, from designing a 3D model to printing functional prototypes.

Experts from Atfaal Innovations, along with in-house trainers, highlighted the growing importance of 3D printing in sectors such as manufacturing, healthcare, architecture and education.

The workshop is part of CIED-IUST Foundation's ongoing commitment to fostering innovation, entrepreneurship and skill development among students and innovators.
