## Two-day Workshop on DIY 3D Printing

**Awantipora March 25:** Design Innovation Centre, Islamic University of Science and Technology, organised a two-day workshop on DIY 3D Printing at its premises on 23<sup>rd</sup> & 24<sup>th</sup> March 2021.

More than 130 people applied for this workshop out of which the total selected number of participants were limited to 25 due to COVID'19 restrictions and space constraints. The workshop aimed at providing a bird's eye view of the contemporary technologies related to 3D printing along with hands-on sessions on assembling 3D printers from parts.
