Winter training on Artificial Intelligence and Machine learning concludes at IUST

Awantipora, February 6. The 4-week winter training on Artificial Intelligence and Machine Learning concluded at IUST today. The program organized by the Department of Computer Science and Engineering ran from Jan. 9 – Feb 6, 2023 and was attended by students and scholars from SKUAST, Central University of Kashmir, Kashmir University, Academic of Scientific and Innovative Research (CSIR-4PI Campus), and IUST.

The program covered the latest advancements in AI and ML and was led by a team of expert faculty members and research scholars. The participants gained hands-on experience through interactive sessions and practical projects exposing them to new avenues of frontier technologies besides providing networking opportunities to them.
